Professional Profile

I am a **Computer Science Engineer** with a focus on **full stack web development**, actually studying at the **Universidad Técnica Particular de Loja**. I have experience in building optimized, interactive, and responsive web applications using modern frontend and backend technologies. My solid academic background, complemented by certifications from platforms such as **Udemy** and **Cisco Networking Academy**, demonstrates my commitment to continuous learning and staying up to date with industry best practices. With a **B2 level of English**, I am equipped to collaborate in international, multidisciplinary teams. I have applied my skills at company's like: **Chamber of Commerce of Loja**, **Clipp** and **Hospital Clínica San José**, where I contributed to the development of custom web solutions.
